

Mr.
Thank Chair.

Cambodia

Good Morning H.E Ladies and gentlemen,

allow
First of all, please me to express thanks UNESCAP and the Royal Government of Kingdom of Thailand for organizing this timely dialogue.

Mr. Chair, In terms of MDGs and Sustainable development, the Kingdom of Cambodia have achieved some main important goals. Cambodia has adopted National Strategic Development Plan and has been under revised to respond to current needs of reforms. The poverty reduction is reduced remarkably under ~~inter~~ ^{get around} come This year Cambodia ~~get~~ ^{get around} 7.0 GDP. and per capita income is more than 900 US\$. Mr. Chair, Cambodia is committed to graduate from LDC status by 2020.

Distinguished delegates, it is a dream to achieve graduation, Cambodia is working hard; however, it alone, can not achieve the goal. I would like to take this opportunity to call for technical and financial support for the graduation mission. At the same time, Cambodia reiterate, the profound thanks for donors and UNESCAP for providing financial and technical support so far.

In relation to the Development Agenda beyond 2015, Cambodia shares common concern ^{world} is raising by many delegates the current challenges faced by developing countries, especially LDCs; such as poverty, inequality, climate change.

Mr. Chair, inequality in a country ^{or} between countries in the world is big obstacle to development and can not help much the reduction of poverty. climate change in long term or natural disaster might destroy the ~~the~~ outcome of development in a second.

For this reasons, ~~as shared~~ like other delegates, Cambodia would like to suggest the poverty reduction is a core of Development Agenda beyond 2015. Furthermore, issue of climate change, inequality, technical assistance, including Technology transfer for development, LDCs graduation should be remained or incorporated in the Development Agenda beyond 2015.

I thank you for your kind attention
